

HERMETIC AND KSB ENTER INTO A PARTNERSHIP IN SWEDEN

Gundelfingen / Gothenburg. HERMETIC-Pumpen GmbH and KSB Sverige AB have entered into a partnership for the Swedish market. On June 01, 2022, the Gothenburg-based subsidiary of KSB SE & Co. KGaA became the exclusive sales partner for HERMETIC canned motor pumps in Sweden. The new partnership aims to provide even closer support to the Swedish chemical and petrochemical industries, industrial refrigeration and the energy sector with tailor-made pump solutions for demanding applications.

With KSB Sverige AB, HERMETIC gained an experienced partner for the exclusive distribution of its canned motor pumps in Sweden to further strengthen its global distribution network.

The cooperation enables both companies to build on their joint strengths and offer tailor-made solutions for the Swedish refining, petrochemical, refrigeration and process industries.

“The distribution network is crucial for the success of a company. KSB Sverige AB has an extraordinarily high level of technical expertise and a thorough knowledge of the local market. For this reason, I am convinced that we have found the best possible partner in this company and will continue to expand our market share in Sweden,” says Alexander Waidmann, Regional Sales Manager at HERMETIC Pumpen.

KSB Sverige AB, headquartered in Gothenburg, has sales offices in Upplands Väsby and Gävle.

“The cooperation with HERMETIC-Pumpen GmbH enables us to further expand our wide range of pumps. Thanks to the many years of experience and the extensive knowledge that both companies have, we will be able to offer tailor-made solutions,” says Bo Gerdin, Senior Advisor at KSB Sverige AB.

About KSB Sverige AB

In 1926, KSB sold the first pump in Sweden through its official agent C. A. MÖRCK AB. KSB MÖRCK AB was founded in 1988. KSB SE & Co. KGaA acquired the company in 2017 and the company name was changed to KSB Sverige AB.

About HERMETIC

HERMETIC-Pumpen GmbH is a leading developer and manufacturer of hermetically sealed pumps and pumping technologies. The specialist for canned motor pumps has gained a reputation worldwide for safe and durable pumps – for the most extreme areas of application and the most hazardous pumped media. HERMETIC pumps are suitable for fluid temperatures ranging from –160 °C up to +480 °C and system pressures up to 120 MPa. With power outputs from 1 kW to 690 kW, HERMETIC offers canned motor pumps with the largest capacities on the market.

HERMETIC employs around 400 people at its head office in Gundelfingen near Freiburg im Breisgau and over 700 worldwide. The company has offices in China and the USA as well as a global service and contract partner network in over 50 countries. For more information, please visit www.hermetic-pumpen.com.
